## FENCING MATERIALS

[Fencing Materials](#) by a VRP fencing contractors was always best. Good fencing materials protects and confines your invaluable living things by putting a barriers to control animal movement,

unauthorised people interference. for this we have to make the fence resources with sufficient strength to prevent or frightening the animals when going near or over, under, or through the fence.

The conventional Fencing materials are also used by our fencers and make excellent fences with a proper installation. we implementing new things like high tensile wires are used in electric fences.

Selecting a type of fencing materials was chosen according to the need of livestock confinement, animals preservation, production system. sheep and cows on a controlled grazing system..etc. For this each and every different needs there was a division of fences used with different fencing resources.

### FIND YOUR FENCING MATERIALS

- VRP fencing contractors in chennai giving you an ideas to choose fencing materials such as chain link provide a quick cost efficient way of protecting your land property. This chain link fencing materials needs minimal requirement and no need for the Fencing services upto the last. Chain link fences are really not so attractive. but gives a protection to your house or other property.
- If you are a farmer choose a barbed fencing materials that will make your farm land out of animals, especially in hill areas such as nilgiri, koodaloor there was an entry of elephants, cheetahs to the farm land and living areas makes the people afraid. In those places if we applying

this barbed fencing materials that will be more efficient way of protecting our human life an agricultural products.

- Another one was the security fencing material it is really gives profit to the farmers it comes in a way of portable manner so that it was Easily constructed and maintained it is Durable, because of simple physical contact with power supply it works with its Light weight and easily transporable.it is an highly preferable fencing material.

## CHAIN LINK FENCING

[Chain link Fencing](#) was done by an VRP fencing contractors with lots of custom fencing design to our residential and commercial customers throughout India and especially in chennai. VRP was the most desireful chain link fencing contractors in the metropolitan chennai city.If you want to make a unique fence call our fencers immediately to built an beautiful chain link fencing in need,call as soon as possible to discuss your needed design and install options.

Chain Link Fencing, is always the best selling Fence in Chennai,Tamilnadu. It is also economical too.. When chain link fencing installed by an professional fencer it looks great and lasts till the end.

A chain-link fencing was made from galvanized or coated steel wire. It can also be coated with a vinyl polymer called Polyvinyl Chloride, thus changing it's needed color, enhancing it's look, and increasing it's rust protection. Chain-link fencing is mostly used due to its relatively low cost and ease of installation chain link fencing are transparent, and do not obscure sunlight from either side of the fence. chain link fence provide a quick cost efficient way of enclosing an outdoor space. Unlike other fence materials, a chain link fence requires minimal to no upkeep, and will last quite.

## **USES OF CHAINLINK FENCING**

### **Houses**

To separate them land from others and also for privacy

### **Real estate**

Conduct a survey and build the boundary of your property. Our fencers built the fence accurately according to your boundary.

### **Play grounds**

An plastic coated chain link fence was placed to stand in front of environmental changes, and from rust.

### **Car Parking**

To separate car parking from the road side , by the strong chain link fencing

## BARBED WIRE FENCING

- [Barbed Wire Fencing](#) was provided by an VRP Fencing contractors in chennai,which was lighter in weight and hence it can be easily transported and stronger in quality that increase its durability. These Barbed wire fencing provide a perfect obstacle against anypossible interaction in various applications such as in gardens, agricultural crops, cattle poultry.
- Twisting of two Galvanized Tata Gi steel forms a barbed ,which is looks like a tool,now barbed wire fencing is widely used to protect and safeguard military installation, to establish territorial boundaries, and for prisoner confinement.These barbed fences are also used on construction and storage sites and around warehouses, barbed wire fencingprotects supplies and persons and keeps out unwanted intruders.

- These barbed wire fencing materials are covered with razor sharp barbed tape, which provide utmost protection against eavesdropping of undesired thefts, wild animals . With portability, these wires are easy to install and can be placed anywhere according to your needs.it is mainly for an protection against un authoried trespassing.
- There are several designs possible with barbed wire fencing and the height of the wire fencing can be as per the needs of the customer. The barbed wire fencing materials can be installed using stone pole, concrete poles or according to the circumstances.

Our Professional barbed fencing contractors makes you happy by their fencing skills

## STYLES OF BARBED WIRE FENCING

### Hand-knotting Barbe-

The barbed fencing wire is wrapped around the corner post and knotted by hand. This is a common method to form a secured barbe.

### Wire wrap

The fencing wire is wrapped around the corner post and wrapped onto a special, gritted helical wire which also wraps around the incoming wire, with friction holding it in place.

### Barbed Wire vise

The barbed wire fencing is passed through a hole drilled into the corner post and is anchored on the far side.

VRP Fencing contractors in chennai conveys that our fence is not only stronger, but also easier to install because of its light weight and requires fewer posts during installation than any other Fencing contractors in chennai. Once properly installed, high tensile barbed wire fencing remain tight for years and require very little maintenance. If maintenance occurs just contact our skilled fencers immediately to maintain that fence.

## SECURITY FENCING

Security fencing mainly used for strength, gigantic look, anti-climb, anti-attack. Fencing contractors provides you the powerful security Fencing made with a Galvanized zinc and aluminum compare to other Fencing contractors in chennai. VRP providing a high Power Reliable security fencing. This security fencing was really looks hard to the attacking side. Tamper proof was attached to the fixings so that the fence panel cannot be removed from the attacking side when it was attacked.

An Smooth steel wire from TATA iron & steel company was purchased and used for the VRP security fences, our fencing contractors use a high-tensile (HT) wire.. fence is mechanically strong security fencing used to withstand impact from wildlife, small falling trees and wildfires. Around the Agricultural Property security fencing is widely used for its strength, appearance it is the combination of wire mesh or Panels. this security fence can also produce a high Voltage to disallow the unauthorised people.

## USES OF SECURITY FENCING

- ❖ Construction of Security Fencing can be much cheaper and faster than conventional fences.

- ❖ The risk of injury to the wild animals was lowered by putting a low powered security wire fence compare to the other barbed.
- ❖ Our security fences to be used in similar fashion at some high-secured ware houses.
- ❖ Security fencing materials has been really used in reduce the roaming of elephants in Agricultural tea estates.
- ❖ VRP Fencing Contractors provide you an Security fences with an monitored burglar alarm systems.
  
- ❖ Deterrent to trespassers and predators
- ❖ Keeping wild animals and vermin out
- ❖ Separating different groups of animals
- ❖ Fencing animals off from eroding areas, trees, rivers and roads
- ❖ security fencing for cows and goats
